

ASPHALT PAVING • GRADING

Street Improvement Notice

Addison Street, Poplar Street, And Garden Street

Dear Resident:

During the next few months Addison, Poplar, and Garden Streets will have new sidewalks, curbs, gutters and paving installed. Construction work hours will be 7:30 am to 5:00 pm, Monday thru Friday. This work will be constructed in phases in an effort to preserve as much parking as possible on adjacent streets. At times your street will be posted "No Parking", we ask that you park in your driveway or on adjacent streets. "No Parking" signs will be posted a minimum of 48 hours prior to the start of work. To facilitate this work we will be posting these streets for "One Way" traffic only. During working hours only local traffic will be permitted.

Specifically, on Monday August 30th we will begin the excavation for the gutters on Addison Street between Bay Road and Garden, and on Garden Street between Ralmar and Oakwood. This phase will greatly impact parking on those streets. When possible please park on adjacent Streets. If you have special needs getting in and out of your home, please notify one of onsite employees for assistance.

With your help and patience we hope to complete this work as rapidly as possible and to minimize the inconvenience to you and your neighbors.

Thank You,
O'Grady Paving, Inc.
