(Brad Tarr, Planning Division Manager)

Recommendation: The Planning Division staff recommends that the City Council:

1. **HOLD** public hearing; and:
2. ADOPT the Categorical Exemption for this project, finding that there is no potential for this project to have a significant effect on the environment; and
3. **Affirm** or **Deny** the Planning Commission's decision to Approve the Architectural Supervision (AS 07-12) and Use Permit (UP 07-36). If the City Council decides to affirm the prior decision, it should base its' decision on the findings and subject to the conditions located in the attached Planning Commission's staff report [on pages 5 and 6], with additional or modified conditions as deemed appropriate. The City Council should also direct the City Attorney to modify the language of Condition #11 to more clearly state the intent which is to require that the applicant indemnify and hold the city harmless from any potential legal action that might arise in connection with the approval decision.

NOTE: The Council indicated a desire to review the subject application at its last meeting, following an oral report by the Acting Planning Manager. A public hearing was announced and noticed, which affords the Council the greater latitude of action rather than just as an expanded informational item.
